

We are thrilled to share the latest updates from our project, aimed at enhancing vocational education and training (VET) through collaborative business models and innovative practices.

**Here's a look at what we've been up to:**

### Good Practices Guide & Recommendations for VET Providers

We are delighted to announce that our **Good Practices Guide & Recommendations for VET Providers** is now available in English and will soon be accessible in DE(AT), EE, EL, ES, NL, and PT. This guide showcases good practices in Coworking and Collaborative Working Spaces (CWS) identified across project countries in the EU. It also provides tailored recommendations for VET providers to address challenges, meet learning needs, and improve the quality of VET programs in collaborative business models.

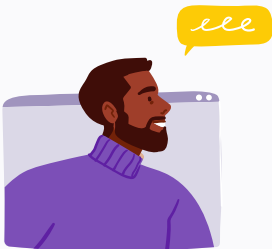

# Development of Skills Report & Roadmap

Following comprehensive field research with young professionals, freelancers, and entrepreneurs via online surveys in each country, we are excited to share our **Skills Report & Roadmap**. The report outlines key learning needs and gaps in Coworking and CWS and its primary objective is to examine the skills required for young people to thrive in collaborative environments, and therefore assist VET providers in adjusting their learning offer and bringing it closer to the needs of learners.

The report is now available in English and will soon be accessible in DE(AT), EE, EL, ES, NL, and PT, while the Skills Roadmap will be digitized and hosted on our project website for easy access. **Stay tuned!**

## Next Steps:

**Co-design labs:** Partners will organise Co-design labs in AT, EE, EL, ES, NL, PT with VET trainers, researchers, supervisors, etc. to discuss the results of WP2 and establish preferences and expectations from RE-WORK training resources.

**RE-WORK VET Resource Kit development:** We will develop a set of VET resources that will be based on WP2 findings and the labs' results, that will focus on Coworking and CWS.

**Project meeting in Austria:** Team members will meet in Austria (Vienna), for up to 2 days, to discuss and finalise the structure and content of the training resources.

**Evaluation Workshops:** Partners will organise online evaluation workshops with VET trainers, researchers, supervisors, etc. in AT, EE, EL, ES, NL.

**Finalisation, translation, and publication of Resource Kit:** Based on the evaluation workshops' results, partners will finalise and graphically design the Resource Kit and will translate them in DE(AT), EL, EE, ES, NL, PT.

We are excited about the progress made and look forward to the continued collaboration and impact of our efforts.

**Stay tuned for more updates!**
